

ambra wall

With an eye catching personality, Ambra is a unique wall lamp that stands out for its minimal, unusual proportions. Its volumes provide an interesting downlight to interior settings by projecting the light onto the wall.

Ambra wall comes with a G9 LED bulb that generates a soft indirect glow. It creates a third visual element on the wall that complements the two cylindrical volumes. Ideal in any space that speaks a direct, minimalist architectural language.

Group arrangements of this lamp, even rotating it into different directions, can turn any wall into a visual interplay.
