hielo

The perfect combination of materials and state of the art LED technology make this pendant an excellent example of modernity in Mexican craftsmanship. The hand-painted Talavera pottery shade has a particularly beautiful shine when multiple lamps are hung in a vertical arrangement to illuminate each other. The thin built-in LED panel is covered with a structured surface to generate a perfect light distribution in a soft directional beam.

Available as single pendant & chandelier

please note: Lead times are subject to change. Variations in colour, shade, surface texture and size are natural characteristics of handmade products and should be expected. Images shown are representative, but may not indicate all variations in these characteristics.
