TOUCH DIMMER TABLE LAMP

"A beautiful combination of transparency and reflections."

The combination of metal, transparent and satin glass surfaces create a contemporary and unique object. We use 100% recycled, handblown glass that causes an irregular surface with surprisingly tiny air bubbles enclosed inside the material that create a charming light effect.

*please note: Lead times are subject to change. Variations in colour, shade, surface texture and size are natural characteristics of handmade products and should be expected.
