

LA TRUFA

WALL LAMP

"A beautiful combination of transparency and reflections."

The combination of metal, transparent and satin glass surfaces create a contemporary and unique object. We use 100% recycled, handblown glass that causes an irregular surface with surprisingly tiny air bubbles enclosed inside the material that create a charming light effect.

The cable is adjustable in height

please note: Lead times are subject to change. Variations in colour, shade, surface texture and size are natural characteristics of handmade products and should be expected. Images shown are representative, but may not indicate all variations in these characteristics.
