# CUPALLO

The shade of this handmade pendant lamp is a game of reflections due to diversity of materials.

*"Small air bubbles in the glass create a spectacular light effect."*

The bulb is covered by a handblown glass shade that enhances the light distribution. We use 100% recycled glass and because of that has an irregular surface with surprisingly tiny air bubbles enclosed inside the material. The glass creates a charming light effect and enhances the light distribution.

Available as single pendant & chandelier

please note: Lead times are subject to change. Variations in colour, shade, surface texture and size are natural characteristics of handmade products and should be expected. Images shown are representative, but may not indicate all variations in these characteristics.
