Can portable natural

Crafted from natural clay in collaboration with 1050°, Can portable natural takes the essence of the Can collection to a new level with portable functionality. It keeps the minimalist, geometric shape inspired by pre-Hispanic traditions, now with a battery that lets you move it freely around any space. Handmade, each piece has its own unique texture, and the play of light and shadow highlights the beauty of the natural clay. A perfect mix of the old and the new, illuminating your spaces with style and simplicity.
