Can wall natural

The Can Wall Lamp is an embodiment of minimalism and architectural sophistication. Crafted from natural clay in collaboration with 1050°, this lamp directs light both upwards and downwards, creating a captivating ambient glow. The upward light can be adjusted by rotating an internal mirror within the lamp, allowing different atmospheres suited to various needs. The interplay of light reflects softly, enhancing the surrounding space with a warm and inviting atmosphere. Ideal for hallways or as an accent piece in living areas, the Can Wall Lamp seamlessly blends historical craftsmanship with contemporary design, achieving a balance between tradition and modernity.
