

Meta ochre

dauidpompa

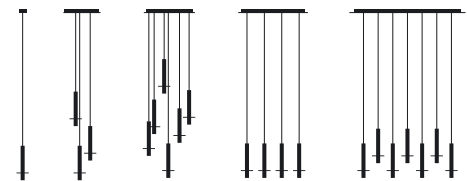

Meta Ochre brings color and contrast to the Meta collection. This new composition of Travertino stone and copper easily becomes the center of attention in any space. The strong visual contrast between both materials creates a new composition with a Mexican flavor. An exquisite and sophisticated match adding life to neutral spaces, complementing an earth palette.

Quarried in Puebla, Mexico, Travertino is a natural stone with a recognizable ochre tone, containing mineral inclusions in white, light and dark gray. Extremely rich in textures, its patterns are elegant and refined.
