davidpompa

Evocative both on and off, capable of bringing sensations between tradition and modernity. The soft and overlaying light is reflected onto the surface of the materials, subsequently diffused into every space.

f combines unique craft-based expertise with a modern and strikingly simple style. The handblown glass makes every single lamp unique. We use 100% recycled glass. This ensures an irregular surface with surprisingly tiny air bubbles which create a charming light effect and enhances light distribution.
